Dear Editor:

I get your monthly Church Bulletin each month after it has followed me all over the face of the earth. I appreciate you sending it to me as it and the newspaper clippings my mother sends me are the only means of keeping up with my old friends who are now all over the world in different branches of the service. I have been in north-west Africa and parts of Europe for the last seven months and the shores of the United States coming up over the horizon will be a wonderful sight to me.

Please give my friends my service address. I would appreciate it if you ^{would} be so public, it is so my old friends could drop me a line. I would appreciate hearing from any one from Salisbury. Thank you again for the monthly Bulletin - it's a great moral booster.

Sincerely yours, → James
William
